Cal OES COASTAL REGION

Barge with Mechanical Issues, Oregon-California Border, SPILL: 16-7101

On 11/23/16 at 0956 hours, the California State Warning Center (CSWC) received a report from OKirby Offshore Marine advising that a barge was having mechanical issues off of the Oregon-California border.

- The barge, DBL 185, is carrying Alkylate (77,000 barrels), Ultra Low Sulfur Diesel (26,000 barrels), and Gas Blend Stock (70,000 barrels).
- DBL 185 is operating on one engine from what is believed to be a bad fuel issue and is asking permission to enter the San Francisco Harbor on one engine.
- The barge is presently 2.5 days out from San Francisco Harbor and is not anticipating any problems at this time as it has power and two tugs are at scene.
- The CSWC has made all appropriate notifications per SOP; including, the Department of Fish and Wildlife Office of Spill Prevention and Response (OSPR) and the US Coast Guard Sector San Francisco.
- The Cal OES Ports and Harbor Emergency Services Coordinator (ESC) is monitoring the incident and will provide updates as warranted,

Cal OES INLAND REGION

Proclamation

On 11/23/16, the California State Warning Center (CSWC) received Continuing Resolutions for Tree Mortality and Drought from Mariposa County.

Cal OES SOUTHERN REGION

Proclamation

On 11/23/16, a Proclamation was received from Los Angeles County due to the Marek Fire on 11/14/16. The County is requesting: a Governor's Proclamation; California Disaster Assistance Act funds; and any other applicable State and Federal Resources.

SITUATION SUMMARY

California Department of Public Health Zika Virus and Meningococcal Disease Update

The Medical and Health Coordination Center (MHCC) continues to be activated in response to the Zika Virus Disease and Meningococcal Disease Outbreak. This situation report reflects only Zika Virus activities.

The California Department of Public Health (CDPH) and Emergency Medical Services Authority (EMSA) are currently the only Emergency Function 08 (EF 08) partners at the state level reporting on this activation.

- The MHCC is coordinating with EF 08 partners, healthcare facilities and local health departments (LHDs) to ensure responses are timely and accurate.
- CDPH and EMSA Duty Officer Programs are monitoring the Zika virus disease outbreak after hours and remain in communication with the Regional Disaster Medical and Health Coordination (RDMHC) and the Medical Health Operational Area Coordinator (MHOAC) Programs throughout California.

Zika Virus

- As of 11/18/16, there have been 387 travel-associated Zika virus infections in California.
- This number is an increase from 374 cases reported in the last operational period.
- CDPH centers and programs continue to monitor Zika virus disease and provide information to the MHCC related to their specific activities on a weekly basis.

WEATHER OF CONCERN

Weather of Concern

- For portions of Southern California, very dry conditions are expected both Thursday and Friday with widespread relative humidities in the single digits. Elevated fire threat will continue in the mountains as gusty south winds couple with continued single digit humidities.

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

Key Points

11/24 – 11/30

Thursday

- Gusty winds will cause travel impacts over portions of southern CA. Elevated fire weather conditions also expected in these areas.

Friday-Sunday

- Snow will cause travel impacts over the Sierra and mountains of northern CA
- The mountains of southern CA will see snow on Saturday and Sunday which may impact travel
- Heavy rain is expected over far northern CA. No main stem flooding expected at this time but rivers will see some rises during this time.

Sunday-Monday

- Gusty winds will cause travel impacts over portions of southern CA

Tuesday-Wednesday

- No significant hazards expected

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

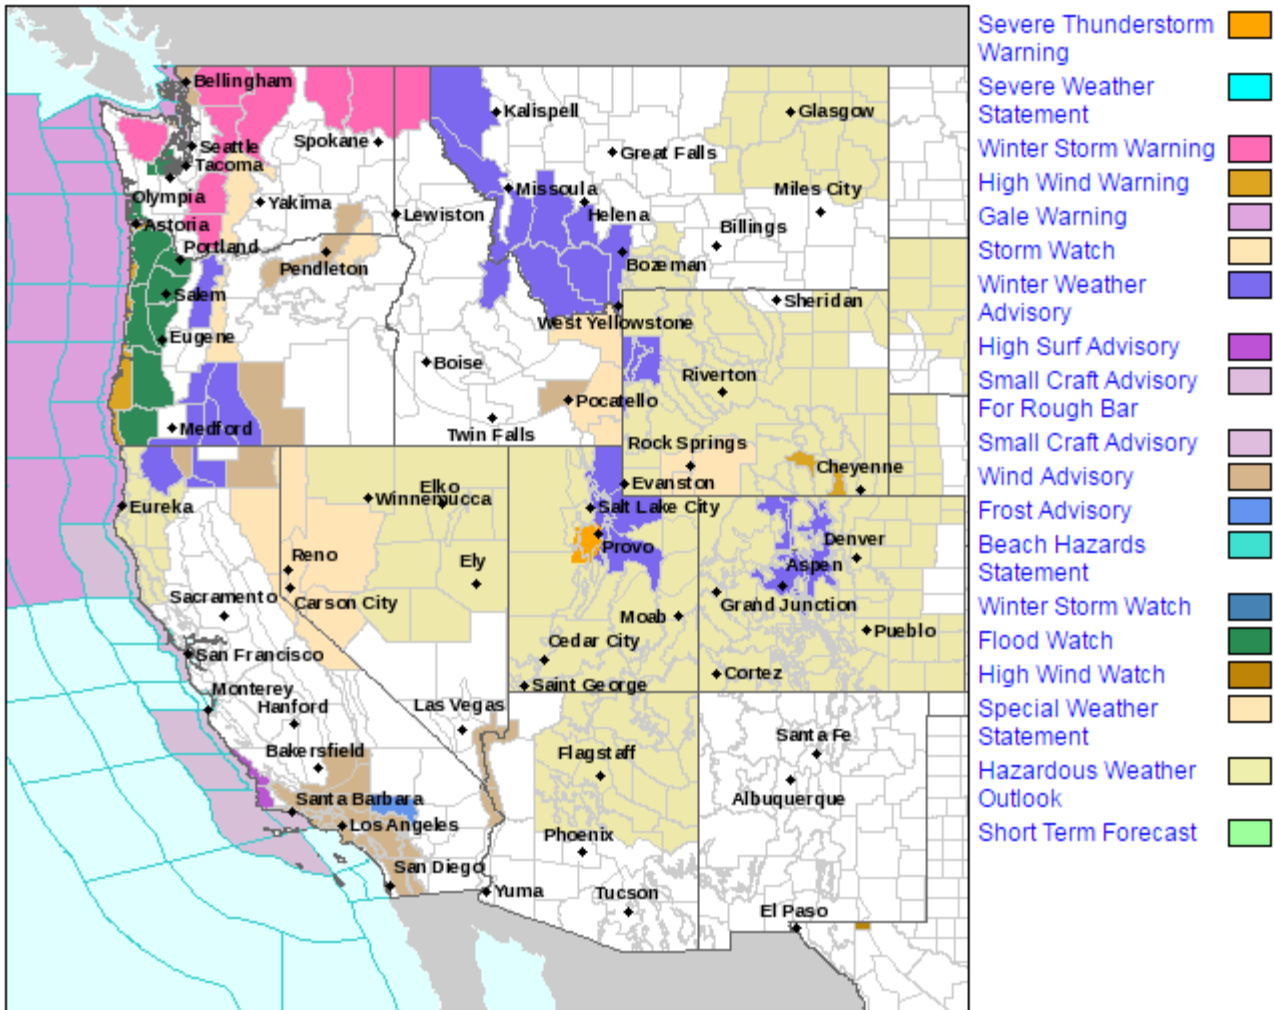

A series of cold Pacific storms and cold fronts will move across the region between now and Sunday, followed by mild, breezy and drier weather on Monday and Tuesday. Another system will bring rain and mountain snow to the region on Wednesday. The system currently passing over the region will produce a few showers and isolated thunderstorms until this evening, then dissipate. Snow levels will be around 2500 feet in the north and 4000 feet in the south. Another system will reach the coast late on Thanksgiving Day, but only slowly move inland on Friday. It will finally reach eastern areas early Saturday, and another wave of precipitation will spread across the region late Saturday and early Sunday. Snow levels will generally be 5000 feet and above as each system arrives, and drop to 2500-4000 feet once each cold front passes. As each system approaches southerly winds along and ahead of the cold front will gust to 20-30 mph in open areas with peak winds in wind-prone areas reaching 35-45 mph. Temperatures will be below normal each day.

SOUTHERN CALIFORNIA

A Pacific trough moving through Northern California will bring scattered showers with less than a quarter inch of rainfall from Monterey/Fresno County line northward this morning. The snow level will be around 5,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the Tehachapi Mountains, Antelope Valley, and Banning Pass through this afternoon. There will be northwest to north winds of 20 to 30 mph with gusts to 50 mph from Santa Barbara County eastward into western Los Angeles County late this afternoon through tonight. Temperatures will be near to a little below normal today with 40s to low 50s across the mountains, 50s to low 60s in the valleys of Central California, and mid 60s to mid 70s in the valleys of Southern California. Minimum humidity will be 30% to 50% across Central California and 15% to 30% across Southern California and the deserts. A weak ridge of high pressure will bring a few degrees of warming to most of the region Thursday and Friday, but there will be significant warming across the coastal and valley locations of Southern California due to offshore flow. Northeast to east winds of 15 to 25 mph with gusts to 40 mph will surface across the mountains and below the canyons and passes of Southern California early Thursday morning through the afternoon. Minimum humidity will drop to the single digits and teens away from the Central Valley Thursday and Friday. A couple of Pacific troughs will bring well below normal temperatures and showers to the entire region this weekend. Most locations will receive between 0.50 and 1.50 inches of rainfall this weekend, but the Sierra and its surrounding foothills will receive 2 to 4 inches of rainfall. The snow level will be around 5,000 feet Saturday and around 4,000 feet Sunday. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas this weekend. A ridge of high pressure will bring a warming and drying trend to the region early next week.

WEATHER MAP

CAL OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2016-LAW-28597, 11/23/16, 0130 hours:** The Law Duty Officer (LDO) received a request from Napa County Sheriff for (30) Type 2 ground searchers and (2) Trailing K-9 teams to assist in searching for a missing 43-yr old female. Female walked away from her home yesterday (11/22/16) and has not been seen or heard from. Napa requested searchers and K9s to meet at the Command Post (CP) today 11/23/16 at 0800 hours. CP location is Tubbs Road at Highway 29, Calistoga. N38° 36.602, W117° 40.721. LDO contacted the Cal OES K9 Coordinator, Lake, Solano, Marin, Sonoma & Contra Costa County Sheriff's Departments for resources to assist in this search. **Mission Ongoing.**

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Coastal-26848:** Caltrans - Hazmat Manager for DROC for the Clayton Fire in Lake County. On Scene 09/28/16 - 12/16/16. **Mission Ongoing.**
- **2016-Coastal-26842:** CDFW - Oil Spill Prevention Specialist for the Clayton Fire in Lake County. To be On Scene 10/03/16 - 12/16/16. **Mission Ongoing.**
- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. **Mission Ongoing.**
- **2016-Coastal-26412:** DTSC clean up assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. **Mission Ongoing.**
- **2016-Southern-25043:** California Department of Public Health to conduct housing and food inspections for detention facilities through 12/31/16. **Mission Ongoing.**
- **2016-Southern-25037:** California Division of Drinking Water to conduct surface water inspections for 11 water systems and train new hires through 12/31/16. **Mission Ongoing.**
- **2016-SOC-24742:** Hazardous Waste Task Force to segregate, collect, and package hazardous waste at the 250+ destroyed and damaged structures in the Erskine Fire burn area. This is expected to be in place through December 2016. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWs weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

Cal OES 2016 DROUGHT

The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.

Current Local Emergency Proclamations:

A total of **58** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:
